UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

INDEX OF OCCUPATIONS AND OF INDUSTRIES

INTRODUCTION

The occupational designations in this index are in large part those returned on the enumerators' schedules at the Twelfth Census of the United States. These designations have been supplemented, however, by additional designations returned at the Thirteenth, the Fourteenth, and the Fifteenth Censuses, and by designations gleaned from various occupational glossaries and from other sources. The occupational classification in the Index, shown on pages 19 to 36, is, with some modification, the Standard Occupational Classification formulated during 1938 and 1939 by an interdepartmental committee sponsored by the American Statistical Association and the Central Statistical Board. The arrangement of the census classification differs somewhat from the arrangement of that classification, however, and a considerable number of the composite occupation groups of that classification have been subdivided in the census classification. Through such subdivisions the 327 occupations and occupation groups of the Standard Classification have been increased to 451. The increase has consisted, principally, in further subdividing, by industry, "Proprietors, managers, and officials"; "Foremen"; "Inspectors"; "Operatives and kindred workers"; and "Laborers, except farm." The 451 census classifications will be combined into 194 in some of the tabulations. (See col. 1, pp. 19 to 36.)

The industrial classification in the Index is based on the Standard Industrial Classification, which was prepared, during the years 1937-1939, under the auspices of the Central Statistical Board, by a committee composed of representatives of various Government agencies. The Standard Industrial Classification was devised for the purpose of classifying industries on the basis of returns from establishments. The modification of the Standard Industrial Classification, shown on pages 37 to 39, was made by the same interdepartmental committee that prepared the Standard Occupational Classification referred to in the preceding paragraph. The modification consisted in combining the 1,411 industries of the Standard Industrial Classification into 132 industries and industry groups, in order to form a classification suitable for coding industrial information obtained from individual workers or members of their families. Since, with a few exceptions, the combinations were of consecutive titles, the Standard Industrial

Classification is readily convertible to the industrial classification herein presented.

The index is printed in two forms—classified and alphabetical—a separate volume being devoted to each form. In the Classified Index the occupational designations are arranged in classified form, each under its proper occupation or occupation group, while in the Alphabetical Index the occupational designations are arranged alphabetically and each designation is followed by a symbol indicating to which of the 451 occupations and occupation groups of the classification it belongs. The Alphabetical Index also contains an index of approximately 9,500 industry designations. These designations are arranged alphabetically and each is followed by a symbol indicating to which of the 132 titles of the industry classification it belongs.

The index was prepared by Dr. Alba M. Edwards, assisted by Ernest J. McCormick, under the general supervision of Dr. Leon E. Truesdell, chief statistician for population. Dr. Bruno Fels supervised the compilation and classification of the designations presented in the alphabetical list of industries.

8529

MAJOR OCCUPATION GROUPS

The 451 occupations of the present census classification are arranged into 11 major occupation groups. These 11 groups, each preceded by its code symbol, are as follows:

- V. Professional and semiprofessional workers
 - a. Professional workers
 - b. Semiprofessional workers
- 0. Farmers and farm managers
- 1. Proprietors, managers, and officials, except farm
- 2. Clerical, sales, and kindred workers
 - a. Clerical and kindred workers
 - b. Salesmen and saleswomen
- 3. Craftsmen, foremen, and kindred workers
- 4. Operatives and kindred workers¹
- 5. Domestic service workers
- 6. Protective service workers
- 7. Service workers, except domestic and protective
- 8. Farm laborers and foremen
- 9. Laborers, except farm¹

The above groups, as they are constituted in the census classification, are defined below in order of their code symbols.

V.—A *professional worker* is (1) one who “performs advisory, administrative, or research work which is based upon the established principles of a profession or science, and which requires professional, scientific, or technical training equivalent to that represented by graduation from a college or university of recognized standing”; or (2) one who performs work which is based upon the established facts, or principles, or methods in a restricted field of science or art, and which work requires for its performance an acquaintance with these established facts, or principles, or methods, gained through academic study or through extensive practical experience, one or both.

0.—A *farmer* is one who, as owner or tenant, and a *farm manager* is one who, as a paid employee, operates a farm for the production of crops, plants, vines, and/or trees (forestry operations excluded), and/or for the rearing of animals and the care of their products.

1.—A *proprietor* is an entrepreneur who owns, or who owns and, alone or with assistants, operates his own business and is responsible for making and carrying out its policies. A *manager* is one who manages all or a part of the business of another person or agency; who

¹ Laborers, extraction of minerals, are included in “Mine operatives and laborers” in group 4.

has large responsibilities in the making and/or in the carrying out of the policies of the business; and who, through assistants, is responsible for planning and supervising the work of others. An *official* of a company, a corporation, or an agency is an officer whose work involves large responsibilities in the making and/or in the carrying out of the policies of the concern or agency, and/or in planning and supervising the work of the concern or agency or that of one or more of its departments.

2.—A *clerical or kindred worker* is one who, under supervision, performs one or more office activities, usually routine, such as preparing, transcribing, and filing written communications and records; editing and coding schedules; compiling statistical or other data; operating office machines; and, in general, assisting in the work of the office, or in the work of a superior, by making appointments, acting as information clerk, or as record clerk, or as telephone operator, or as messenger. Less routine, but also clerical, is the work performed by such persons as collectors of accounts, mail carriers, and railroad station agents. A *salesman* or a *saleswoman* is one who, usually under supervision, is selling commodities, insurance, real estate, securities, or services.

3.—A *craftsman* is one engaged in a manual pursuit, usually not routine, for the pursuance of which a long period of training or an apprenticeship is usually necessary, and which in its pursuance calls for a high degree of judgment and of manual dexterity, one or both, and for ability to work with a minimum of supervision and to exercise responsibility for valuable product and equipment. A *foreman* is one who directs other workers, under the supervision of a proprietor or a manager.

4.—An *operative or kindred worker* is one engaged in a manual pursuit, usually routine, for the pursuance of which only a short period or no period of preliminary training is usually necessary, and which in its pursuance usually calls for the exercise of only a moderate degree of judgment or of manual dexterity, and which usually calls for the expenditure of only a moderate degree of muscular force.

5.—A *domestic service worker* is one engaged in a personal service pursuit in a private home. Housekeepers, laundresses, and servants, in private families, comprise this group.

6.—A *protective service worker* is one engaged in protecting life or property. The group includes such workers as city firemen, guards, watchmen, detectives, soldiers, and law-enforcing officers.

7.—A *service worker, except domestic and protective*, is (1) one who is engaged in cleaning and janitor services in buildings other than private homes—such as a charwoman, janitor, or porter; or (2) one who is performing services, often of an individual character, for other persons—such as a barber, cook, waitress, practical nurse, or usher.

8.—A *farm laborer* is one who, as a hired worker or as an unpaid member of a farm operator's family, works on a farm at one or more of the processes involved in the production of crops, plants, vines, and trees (forestry operations excluded), or in rearing animals and caring for their products. Laborers working at cotton gins, grist mills, packing houses, etc., on farms, and persons engaged in hunting, trapping, and game propagation are not classified as farm laborers. A *farm foreman* is one who directs farm laborers, under the supervision of a farmer or a farm manager.

9.—A *laborer, except a farm laborer*, is a worker engaged in a manual pursuit, usually routine, for the pursuance of which no special training, judgment, or manual dexterity is usually necessary, and in which the worker usually supplies mainly muscular strength for the performance of coarse, heavy work.

8529

INSTRUCTIONS FOR USING THE OCCUPATION INDEX

Occupational designations and symbols.—Each complete return of an occupation, as "Weaver—silk mill," is called an "occupational designation." Each occupational designation is divided into two parts, the first part, entered in column 28 of the schedule, giving the occupation of the person and the second part, in column 29, the industry, business, or place in which the person works. Each occupational designation is represented in the index by a code symbol. Every complete symbol has either five figures, or else three figures followed by the abbreviation "Ind." The first figure of each 5-figure symbol represents a major occupation group of the classification, as "V, Professional and semiprofessional workers," "0, Farmers and farm managers," etc. The first three figures of each 5-figure symbol represent the occupation, and are called the "occupation symbol"; the last two figures represent the industry, and are called the "industry symbol." Thus, in the symbol for "Farmer—general farm," which is 000 VV, 000 stands for Farmer and VV for General farm. The occupation and industry symbols are to be entered in the first and second sections of code. column F.

On the census punch card, the letters and figures from which the occupation and industry symbols are formed are printed in five vertical columns, each column containing the letters V and X and the figures 0 to 9, with a sixth column containing abbreviations for class of worker. Together, these six columns are called the occupation field of the punch card.

OCCUPATION FIELD OF PUNCH CARD					
Occupation		Industry		Class of worker	
V	V	V	V	V	Un
X	X	X	X	X	
0	0	0	0	0	
1	1	1	1	1	PW
2	2	2	2	2	GW
3	3	3	3	3	E
4	4	4	4	4	OA
5	5	5	5	5	NP
6	6	6	6	6	New
7	7	7	7	7	
8	8	8	8	8	
9	9	9	9	9	

In general, the occupation symbols are formed by combining each letter or figure in the first column of the occupation field of the punch card in turn with each letter or figure in the second and third columns. Similarly, the industry symbols are formed by combining each letter or figure in the fourth column in turn with each letter or figure in the fifth column.

Repeater occupations.—Most occupations are pursued in a number of industries, and some, such as "Clerk" and "Stenographer," are pursued in all industries. For the purposes of this classification, occupations pursued in a number of industries are termed "repeaters." Usually, in the case of a "repeater" occupation, the abbreviation "Ind" is used instead of the industry part of the symbol.

Use of the abbreviation "Ind."—The substitution of the abbreviation "Ind" for the industry part of a complete symbol signifies that the *occupation* part of the symbol applies in each industry, unless exceptions are specified, and that the *industry* part of the symbol varies according to the industry in which the occupation is pursued. Thus, the symbol for "Waitress, except private family" is 780 Ind. This symbol means that every waitress who is not working for a private family is to be given the occupation symbol 780, and that, in each particular case, the industry symbol to be assigned is the symbol for the industry in which the waitress is employed. If she is employed in a hotel, it is 87; if in a restaurant, it is 71; and if in a drug store, it is 70.

Class of worker.—The entry in column 30 of the schedule indicates the class of worker, distinguishing employees from employers, etc., as shown in the statement below. These entries are to be coded in the third space in column F, as indicated below:

Schedule entry	Code	
PW	1	Wage or salary worker in private work
GW	2	Wage or salary worker in Government work
E	3	Employer
OA	4	Working on own account
NP	5	Unpaid family worker
New worker	6	New worker, that is, person without previous work experience.

The new workers will have no symbol in column 30, but will be identified by the entry "New worker" in the occupation column and the entry "3" in column E.

Some of the occupational designations are followed in the second column of the index by an abbreviation for the class of worker, or by the class of worker, as given in the statement above. In each such case the symbol for this designation should be assigned to a corresponding designation on the schedule only when the designation on the schedule is followed in column 30 of the schedule by an abbreviation for the same class of worker. For example, the return "Gardener—

farm or garden (PW)" should be given the symbol 866 VV, while the return "Gardener—farm or garden (E)" should be given the symbol 000 VV. Where, for a person having occupation and industry reported, the class of worker is not given, or is inconsistent, the class of worker should be determined (in accordance with supplementary instructions to be furnished) and the proper code entered in the third section of column F. It is not necessary in such cases to supply the missing entry in column 30.

Agricultural laborers with class of worker not stated.—A child 17 years of age or under, or a woman of any age, who is enumerated with the home family on a farm and is returned as a farm laborer, a garden laborer, or other agricultural laborer, but with no return of the class of worker in column 30, should be considered an unpaid family worker (NP), unless there is evidence to the contrary. Any other person returned as a farm laborer, a garden laborer, or other agricultural laborer, but with no return of the class of worker in column 30, should be considered a wage or salary worker "in private work" (PW), unless there is evidence that the person is "in Government work" (GW). In each case the coding clerk should enter the proper class of worker symbol in the third section of column F.

Farm schedule as evidence of class of worker.—In the case of such a return as "dairyman" or "ranchman," with no return of the class of worker, it may be difficult to determine whether the person is a proprietor or a laborer. If column 34 shows that a farm schedule was returned for the person, classify him as a *proprietor*. Otherwise, classify him as a *laborer*.

New worker.—For a person returned as "New worker," in column 28 of the schedule, leave the first two sections of column F blank and enter the code "6" (new worker) in the third section of column F.

Omission of industry.—Where no industry is shown in the industry column of the alphabetical index, the symbol given applies (unless inconsistent), regardless of what the return may be in the industry column of the schedule. Thus, "Telegraph messenger, Postal Telegraph," and "Telegraph messenger, Western Union," each should be given the same symbol 258 56.

Use of parentheses.—The terms given in parentheses after certain occupational designations, such as "(any company)," "(any)," "(steam)," etc., usually will not be found on the schedule. They are used to explain or qualify what immediately precedes them. Thus, in the occupational designation, "Agent—insurance (any kind)," the term "(any kind)" signifies that every insurance agent is to be given the symbol 274 Ind/, although one agent may be returned on the schedule "Agent—life insurance," another "Agent—fire insurance," another "Agent—marine insurance," etc. But a term given in paren-

theses as part of a designation may or may not be found on the schedule. In either case, the designation on the schedule is to be assigned the symbol given in the index, unless this symbol would be inconsistent. Thus, the index designation, "Collector (ticket)—ferry, 266 51," means that the symbol 266 51 is to be assigned whether the return on the schedule is "Collector (ticket)—ferry" or merely "Collector—ferry."

Use of (n. s.).—Many of the occupational designations in the index are followed by "(n. s.," meaning *not specified*, as, for example, "Sewer—(n. s.," "Agent (n. s.)—Government," etc. The abbreviation "(n. s.," in such cases means that the occupation is *not specified* on the schedule, otherwise than as given in the index.

"Not specified" symbols.—Never give an occupation a not specified "(n. s.," symbol until you have exhausted every available resource in trying to find to what specified group it belongs. Although you cannot determine the specific industry, you may determine the part of the industrial field in which the person worked, and thus assign the code 05—"Not specified textile mill," or 41—"Not specified metal industry," or 44—"Not specified manufacturing industry," or 54—"Not specified transportation," or 79—"Not specified retail trade." The occupation may indicate clearly the industry, or the part of the industrial field, in which the person works. Examples: Art dealer, banker, clergyman, constable, factory hand, housemaid. Only those cases in which nothing can be determined as to the industry should be coded 99—"Nonclassifiable."

Government workers.—A person should not be coded as working for the Federal Government (97), or for a State or local government (98), when the specific industry in which the person worked can be determined.

Symbols in industry column of index.—A symbol in parentheses following the designation for a group of related industries, in the industry column of the index, should be assigned when the specific industry of the particular group cannot be determined. Thus, the designation "(Any textile mill)," followed by the symbol (05), indicates that if the particular kind of textile mill, as cotton, silk, etc., cannot be determined, then the symbol 05 (not specified textile mill) should be assigned. In each other case, the symbol in parentheses, in the industry column, should be assigned when the particular industry cannot be determined.

Use of W-R.—The abbreviation "W-R," in the industry column of the schedule, indicates that the establishment is engaged in both wholesale and retail trade. In such a case, assign the industry symbol (wholesale or retail) suggested by the return. If no specific industry is suggested, assign the symbol 79 (not specified retail trade).

Use of (n. e. c.).—Certain occupational designations in the index are followed by “(n. e. c.),” meaning *not elsewhere classified*, as, for example, “Laborer—county (n. e. c.), 988 98.” The abbreviation “(n. e. c.)” in this case means that every *laborer* for a county, not elsewhere classified in the index, is to be given the symbol 988 98, regardless of the exact form of the return on the schedule.

Combinations.—For convenience, certain occupations, and certain industries or places of business, have been combined in the index. The principal combinations are:

Boat, ship, or vessel	Lead or zinc mine
Brick, tile, or terra-cotta factory	Manager or superintendent
Broom or brush factory	Marble or stone yard
Butter or cheese factory	Merchant or dealer
Cement or gypsum mill	Mineral or soda water factory
Cigar or tobacco factory	Oil or gas well
Clock or watch factory	Paper or pulp mill
Dyeing or finishing mill	Piano or organ factory
Electric light or power plant	Printing or publishing company
Employee or worker	Rope or cordage factory
Foreman or overseer	Sail, awning, or tent factory
Fruit or vegetable cannery	Saw or planing mill
Gold or silver factory	Scrubber or sweeper
Gold or silver mine	Slaughter or packing house
Hemp or jute mill	Sugar factory or refinery
Hosiery or knitting mill	Suit or coat factory
Lamp or lantern factory	Wagon or carriage factory
Lead or zinc factory	Woolen or worsted mill

Learn these combinations, and in coding occupations assign the symbol given in the index, although but one member of the combination appears on the schedule.

Inverted forms.—So far as practicable, the occupational designations have been printed in the natural order. In some cases, however, the designations are printed in inverted order, as “Sorter, nails,” “Cutter, fruit,” “Curer, hams,” etc. Hence, if a designation is not found in the natural order, look for it in the inverted order.

Equivalent terms.—A separate designation is not always given in the index for each of the different ways of returning the same occupation or industry. The following is a list of equivalent terms:

Bar mill.....	} Steel mill
Blast furnace.....	
Bessemer converter.....	
Open-hearth furnace.....	
Puddling mill.....	
Blooming mill.....	
Plate mill.....	
Rail mill.....	
Rod mill.....	
Sheet mill.....	
Tin plate mill.....	

Boss.....	}	Equivalents
Foreman.....		
Overseer.....	}	Furniture factory
Chair factory.....		
Office fixtures factory.....		
Table factory.....		
Day laborer.....		Laborer
Drill hand.....	}	Driller
Drill press (hand, operator, etc.).....		
Gas fitter.....	}	Plumber
Pipe fitter.....		
Steam fitter.....		
Machine hand.....	}	Equivalents
Machine operator.....		
Machine worker.....		
Machine tender.....		
Manager.....	}	Equivalents
Superintendent.....		
Mill.....	}	Equivalents
Works.....		
Factory.....		
Plant.....		
Sash and door factory.....		Planing mill

Qualified occupations.—Often a separate designation is not given in the index for a form of return differing from the more common form only by having a qualifying adjective. Thus, "Laborer—*wire* nail mill," is not given a separate designation from "Laborer—nail mill," and should be given the same symbol; but great care must be exercised in all such cases. For example, "Driver, *logs*—log camp" and "Driver, *team*—log camp" are distinct and separate occupations and should be given different symbols.

Participial forms of return.—Participial forms of return should usually be treated as though they were the noun forms. For example, "Caning—furniture factory," should be treated as though it were written "Caner—furniture factory"; and "Chopping—turpentine farm" as though it were written "Chopper—turpentine farm." But, in the case of such a return as "Farming—dairy farm," code the person as a *farmer* if column 34 shows that a farm schedule was returned for him, or if the return in column 30 is (E) or (OA); otherwise, code him as a *farm laborer*.

Occupations not covered by the index.—The index covers most of the important occupational designations. However, it is not exhaustive. If an occupational return is not found in the Alphabetical Index, or is not covered by it, refer the case to your supervisor. If an industry return is not found in the occupation index, consult the Industry Index.

Caution: Do not use an occupation symbol with any industry symbol with which it is not combined in the index, *unless* the index

shows that the occupation symbol is a "repeater" applying to that industry. *Refer all doubtful cases to your supervisor.*

Who is to be coded.—The question as to whether or not the person is to be counted as a part of the labor force is determined by the answers in columns 21, 22, 23, and 24 on the schedule. The classification based on these entries is coded in column E. Code "1" in column E, indicates a person at work on private or nonemergency Government work (Yes in column 21); code "2" represents a person on emergency work (Yes in column 22); code "3" represents a person seeking work (Yes in column 23); and code "4" indicates a person having a job or business though not actually at work during the week of March 24-30 for some temporary reason. Only the cards which represent persons 14 years old or over coded 1, 2, 3, or 4 in column E will be tabulated by occupation. It is not a serious matter, therefore, if an occupation code is entered occasionally for a person under 14 years old or for a person coded other than 1, 2, 3, or 4 in column F. Unnecessary effort may be saved, however, if before spending much time in determining the proper symbols for a difficult return you first make sure that the person represented is not outside the labor force.

Farmer or farm laborer.—In every case in which a person is returned as a *farmer* or as a *farm laborer*, in column 28 of the schedule, determine from the evidence in the other columns whether or not the return is correct. Occasionally you will find that the head of the family has been returned as "Farm laborer," and that column 34 shows that a farm schedule has been returned for him. In other cases you will find that a man who is not the head of the family and for whom no farm schedule has been returned is returned as a "Farmer," in column 28. In both the above cases the evidence on the schedule is rather contradictory; but, while actual cases like these are unusual, they are entirely possible. Therefore, great caution must be used in such cases. If the enumerator seems not to have discriminated between "Farmer" and "Farm laborer" and to have thrown the farm workers indiscriminately into one class or the other, edit columns 28 and 29 according to the evidence in the other columns; but if the enumerator seems to have discriminated carefully between "Farmer" and "Farm laborer," accept his return of the occupation even though it is unusual.

"Laborer—odd jobs," etc.—In case a person *living on a farm* (see column 6) is returned as "Laborer—odd jobs," "Odd jobs," or "Working out," give him the symbol for farm laborer, unless it is evident that he is working in a railroad gang, a lumber camp, or at some other nonagricultural work.

Foremen and proprietors.—Where not specifically included in the index, *craft* foremen and proprietors who usually work at their trades (returned as *foreman cabinetmaker*; *foreman tinsmith*; *proprietor tailor*;

etc.) should be coded according to their specific trades, as carpenters, electricians, tailors, etc. Likewise, *professional* proprietors, such as *proprietor chemist*, *proprietor pharmacist*, etc., should be coded as chemists, pharmacists, etc., when not specifically included in the index.

Unusual occupations for children.—Whenever a child under 18 years of age is returned as following any occupation listed in the first column below, give it the symbol for the corresponding occupation of the second column.

Blacksmith.....	Blacksmith's apprentice
Boilermaker.....	Boilermaker's apprentice
Brickmason.....	Brickmason's apprentice
Cabinetmaker.....	Cabinetmaker's apprentice
Carpenter.....	Carpenter's apprentice
Cook.....	Servant
Cooper.....	Cooper's apprentice
Coppersmith.....	Coppersmith's apprentice
Dairy farmer.....	Dairy farm laborer
Designer.....	Designer's apprentice
Draftsman.....	Draftsman's apprentice
Dressmaker (not in factory).....	Dressmaker's apprentice
Electrician.....	Electrician's apprentice
Farmer.....	Farm laborer
Fruit farmer or grower.....	Laborer, fruit farm
Housekeeper.....	Servant
Machinist.....	Machinist's apprentice
Mechanic.....	Mechanic's apprentice
Milliner.....	Milliner's apprentice
Nurse.....	Child's nurse
Plumber.....	Plumber's apprentice
Printer.....	Printer's apprentice
Stock raiser.....	Laborer, stock farm
Stonemason.....	Stonemason's apprentice
Tailor.....	Tailor's apprentice
Tinner.....	Tinner's apprentice

Whenever a child under 18 years of age is returned as following an occupation the mental or physical requirements for the pursuit of which are not usually possessed by a child of such age, refer the case to your section chief. Examples of such occupations follow:

Banker	Insurance agent	Miller
Captain	Jeweler	Mining engineer
Civil engineer	Lawyer	Official (any)
Clergyman or preacher	Locomotive engineer	Physician
Commercial traveler	Locomotive fireman	Proprietor (any)
Dentist	Manager	Real estate agent
Editor	Manufacturer	Roofer
Foreman	Merchant or dealer	Surveyor

It is very unusual for a child actually to follow a proprietary, official, supervisory, or professional pursuit, or a skilled trade, *except* as an *apprentice* or a *helper*.

Peculiar occupations for women.—In case a woman is returned as following an occupation which is very peculiar or unusual for a woman, examine the schedule carefully to determine whether an error may have been made in the return, either of the sex or of the occupation.

It is unusual for a woman to follow any of these occupations:

Auctioneer	Forester	Molder (any metal)
Baggage man	Freight agent	Motorman
Blacksmith	Furnace man	Pilot
Boatman	Garbage man or scavenger	Plasterer
Boilermaker	Gas or steam fitter	Plumber
Boiler washer	Heater	Pressman, printing
Bootblack	Hostler	Puddler
Brakeman	Inspector, mine or quarry	Raftsmen
Brickmason	Inspector, street railroad	Railroad official
Butcher	Ladler or pourer (metal)	Railway mail clerk
Butler	Laborer, coal yard	Roofer
Cabinetmaker	Laborer, lumber yard	Sailor
Captain	Laborer, pipe line	Sawyer
Conductor	Laborer, road or street	Slater
Cooper	Locomotive engineer	Smelter man
Coppersmith	Locomotive fireman	Soldier
Craneman	Loom fixer	Stevedore
Deck hand	Lumberman	Stonecutter
Ditcher	Machinist	Stonemason
Electrician	Manager, mine or quarry	Street cleaner
Engineer (any)	Marine	Structural iron worker
Engine hostler	Marshal	Switchman, railroad
Express messenger	Master	Teamster
Fireman (any)	Mate	Tinsmith
Flagman, railroad	Mechanic	Tool maker
Foreman, lumber camp	Millwright	Woodchopper
Foreman, mine or quarry	Miner	
Foreman (any construction industry)		

Public emergency work (WPA, NYA, CCC, local work relief).—*Occupationally*, persons on, or assigned to, work relief projects should be coded the same as other workers, that is, according to the processes performed, work done, or services rendered. *Industrially*, such persons should be coded the same as persons in private employment, that is, according to the industry to which they are attached—agriculture, construction, manufacturing, educational service, etc.—where such an industry is reported on the schedule. Where the return on the schedule, however, is merely "W. P. A.," "N. Y. A.," "C. C. C.," etc., code the entry "98" (State or local government), if there is a "1" in column E, unless the occupation indicates that the person is employed directly by the W. P. A. Federal office, in which case the code should be "97" (Federal Government). If the entry in column E is "2," assign the industry code "99" (nonclassifiable), unless the occupation suggests the correct industry, e. g., "Road paver" (V9, construction).

Two occupations for same person.—Whenever two occupations connected by “and” are returned for the same person, as “Farmer and agent,” “Editor and lawyer,” etc., code the first return that is definite.

Distinctions to be observed.—Be careful to distinguish between the following:

- A *blast furnace* or *iron rolling mill* and an *iron manufacturing establishment*
- An *iron foundry* and a *brass foundry*
- A *railroad car repair shop* or *roundhouse* and a *car building shop*
- A *rayon yarn mill* and a *rayon weaving mill*
- A *tin plate mill* and a *tinware factory*
- A *steam railroad* and a *street railway*
- A *paper-box factory* and a *wooden-box factory*
- A *locomotive engineer*, a *stationary engineer*, and a *technical engineer*
- A *locomotive fireman* and the *fireman of a stationary boiler*
- A *wholesale* and a *retail merchant* or *establishment*
- A *jeweler in a factory* and a *jeweler working elsewhere*
- A *farm laborer working on the home farm without pay* and a *farm laborer working for wages*
- A *laborer in a mine* or a *log camp* and other *laborers*
- A *clerk in a store* and a *salesman*
- A *contractor* and a *man working at a trade* with his tools
- A *machinist* and a *machine tender*
- A *painter of buildings, ships, etc.*, and a *painter of factory products*
- A *shoemaker in a factory* and one working in a *cobbler shop*
- A *dressmaker* or *seamstress in a factory* and one working elsewhere
- A *practical nurse* and a *trained nurse*
- A *child's nurse* or a *nursemaid* and other *nurses*
- A *paid housekeeper* and a *servant girl*
- A *cook* and a *servant*
- A *laundress working for a private family* or “working out” and other *laundresses*
- A *proprietor* and an *employee*
- An *employee following a hand trade* and an *employer* or *proprietor in the same industry*—between, for example, *baker (employee)* and *baker (employer or proprietor)*; *tailor (employee)* and *tailor (employer or proprietor)*.

Evidence on schedule.—In classifying an occupational return, always consider in connection with it the other information given about the person, such as whether living on a farm, relationship to the head of the family, sex, age, highest grade of school completed, employment status (col. E), whether an employer or an employee, etc. In case you find such a return as “Dairy business” or “Grocery business,” or in case a person is returned as “Maker,” “Operator,” or “Manufacturer,” determine from the evidence on the schedule whether the person is a proprietor or an employee and classify him accordingly. Keep a close watch for inconsistencies.

Legibility.—In coding schedules, *it is very important that every symbol be written so clearly and perfectly that it will not be read wrongly by the punching clerk.* From the practical standpoint an illegible symbol is almost as bad an error as an incorrect one. Write the symbols *clearly and legibly.*

INSTRUCTIONS FOR USING THE INDUSTRY INDEX

The industry index is composed mainly of designations from the joint alphabetical index of the Standard Industrial Classification and the Industrial Classification of the Social Security Board; and the Fifteenth Census, 1930, Classified Index of Occupations of the Bureau of the Census.

Inverted forms.—Most of the industry designations in the index are printed in the natural order, but some designations are printed in the inverted order for the purpose of showing the different industrial classifications of products of the same general name which are sometimes necessitated by differences in specific nature, material, origin, etc. Examples are: "Yarn, bleached"; "Yarn, jute"; "Yarn, rayon"; "Yarn, cotton"; "Alcohol, industrial"; "Alcohol, ethyl"; "Alcohol, grain." Other designations are printed both in the natural order and in the inverted order, merely for the convenience of the coding clerks. If a designation is not found in the natural order, look for it in the inverted order.

Equivalent designations.—A separate designation is not always given in the index for each of the different ways an industry may be returned on the schedules. In most cases, only one of the equivalent words commonly used to designate a place of production is given. Example: Mill, factory, plant.

Abbreviations.—Sometimes for clearness, and sometimes to distinguish between production of manufactured goods, extraction of minerals, construction, wholesale trade, and retail trade, certain industry designations are followed by abbreviations. Some of these abbreviations, with their meanings, are as follows:

(M) denotes "mining"

(R) denotes "retailing"

(C) denotes "construction"

(W) denotes "wholesaling"

(P) denotes "production"

Learn these abbreviations and carefully observe the distinctions they denote.

Other abbreviations in the index are "(n. s.)" and "(C S)." The abbreviation "(n. s.)" means that the industry is *not specified* on the schedule, otherwise than as printed in the index. "(C S)," which is printed in the symbol column, means that the coder should consult the supervisor regarding the code to be assigned.

The industry index includes a number of designations which are qualified as "auxiliary units." Each of these is followed by "(C S)," (consult supervisor), in the symbol column. Examples of such auxiliary units are: The garage of a department store, the power plant of a steel rolling mill, the foundry of a machinery factory, the paint shop or the upholstery shop of an automobile factory. Such auxiliary units should be assigned the codes of the respective industries to which they belong, whenever the schedules contain sufficient information to make this possible. Lacking such information, these auxiliary units should be coded as independent units, i. e., an auxiliary garage as a garage for hire, an auxiliary warehouse as a warehouse for hire, etc.

8529

To facilitate the work of coding, a number of the principal occupations and a number of the principal industries contained in the index have been printed, with their symbols, on a large card. One of these cards will stand on the desk of each coding clerk.

While the "List of Principal Occupations and Industries" contains the more important occupational designations and the more important industries, it is in no sense exhaustive. Hence, while it will indicate the proper classification of a large proportion of the occupational designations returned on the schedules, no attempt should be made to classify all the designations returned without consulting the Alphabetical Index. In case the "List" leaves any doubt whatever as to the correct symbol, the index should be referred to.

The "List" must be used with great care, and the Alphabetical Index must be consulted for all designations not in or not plainly covered by the "List."

Use of brackets.—In the "List of Principal Occupations and Industries," certain occupations are followed by brackets containing, in bold-faced type, the abbreviation "Ex," for *except*, and the names of industries or places of work. *Each industry or place of work given in the brackets is an exception.* Thus, in the designation "Farmer—any farm [Ex turpentine; tung oil]—000 VV," the "Ex turpentine; tung oil" in the brackets means that a farmer on any farm *except a turpentine or a tung oil farm* should be given the symbol 000 VV.

Heed strictly all exceptions noted in brackets.—The symbols for these exceptions usually are not in the "List," but are in the index.

Industry Index.—The "List of Principal Occupations and Industries" includes an Industry Index which comprises the more important industries. Each industry is followed by its code symbol.

Use of "Ind."—The substitution of the abbreviation "Ind" for the industry part of a complete symbol signifies that the occupation part of the symbol applies in every industry included in the "Industry Index," *unless* exceptions are specified in brackets. Thus, in the designation "Accountant—210 Ind," the "Ind" indicates that an accountant in any industry included in the "Industry Index" is to be given the occupation symbol 210, and that the industry symbol to be assigned is the symbol for the specific industry in which the particular accountant is employed. In case this industry is not included in the "Industry Index," the detailed Alphabetical Index should be consulted for the correct occupation and industry symbol.

INDUSTRY CLASSIFICATION

Industries and Industrial Groups with Their Symbols

A.—AGRICULTURE, FORESTRY, AND FISHERY

Symbol

- VV Agriculture
- V0 Forestry (except logging)
- V1 Fishery

B.—MINING

- V2 Coal mining
- V3 Metal mining
- V4 Crude petroleum and natural gas production¹
- V5 Sand and gravel production
- V6 Stone quarrying
- V7 Miscellaneous nonmetallic mining
- V8 Not specified mining

C.—CONSTRUCTION

- V9 Construction

D.—MANUFACTURING

Food and Kindred Products:

- XV Bakery products
- X0 Beverage industries
- X1 Canning and preserving fruits, vegetables, and sea food
- X2 Confectionery
- X3 Dairy products
- X4 Grain-mill products
- X5 Meat products
- X6 Miscellaneous food industries

Tobacco Manufactures:

- X7 Tobacco manufactures

Textile-mill Products:

- X8 Cotton manufactures
- X9 Silk and rayon manufactures
- OV Woolen and worsted manufactures
- 00 Knit goods
- 01 Dyeing and finishing textiles

¹ Includes natural gasoline production.

D.—MANUFACTURING—Continued

Symbol

Textile-mill Products—Continued

- 02 Carpets, rugs, and other floor coverings
- 03 Hats (except cloth and millinery)
- 04 Miscellaneous textile goods
- 05 Not specified textile mills

Apparel, and Other Fabricated Textile Products:

- 06 Apparel and accessories
- 07 Miscellaneous fabricated textile products

Lumber, Furniture, and Lumber Products:

- 08 Logging
- 09 Sawmills and planing mills
- 1V Furniture and store fixtures
- 10 Miscellaneous wooden goods

Paper and Allied Products:

- 11 Pulp, paper, and paperboard mills
- 12 Paperboard containers and boxes
- 13 Miscellaneous paper and pulp products

Printing, Publishing, and Allied Industries:

- 14 Printing, publishing, and allied industries

Chemicals and Allied Products:

- 15 Paints, varnishes, and colors
- 16 Rayon and allied products
- 17 Miscellaneous chemical industries

Petroleum and Coal Products:

- 18 Petroleum refining
- 19 Miscellaneous petroleum and coal products

Rubber Products:

- 2V Rubber products

D.—MANUFACTURING—Continued

Symbol

Leather and Leather Products:

- 20 Leather: Tanned, curried, and finished
 21 Footwear industries (except rubber)
 22 Leather products (except footwear)

Stone, Clay, and Glass Products:

 24 Cut-stone and stone products
 25 Glass and glass products
 26 Pottery and related products
 27 Structural clay products
 28 Miscellaneous nonmetallic mineral products

Iron and Steel and Their Products:

- 29 Blast furnaces, steel works, and rolling mills
 3V Tin cans and other tinware
 30 Miscellaneous iron and steel industries

Nonferrous Metals and Their Products:

- 31 Nonferrous metal primary products
 32 Clocks, watches, jewelry, and silverware²
 33 Miscellaneous nonferrous metal products

Machinery:

- 34 Agricultural machinery and tractors
 35 Electrical machinery and equipment
 36 Office and store machines, equipment, and supplies
 37 Miscellaneous machinery

Transportation Equipment:

- 38 Aircraft and parts
 39 Automobiles and automobile equipment
 4V Ship and boat building and repairing
 40 Railroad and miscellaneous transportation equipment

D.—MANUFACTURING—Continued

Symbol

Not Specified Metal Industries:

- 41 Not specified metal industries

Miscellaneous Manufacturing Industries:

- 42 Scientific and photographic equipment and supplies
 43 Miscellaneous manufacturing industries, n. e. c.

Not Specified Manufacturing Industries:

- 44 Not specified manufacturing industries

E.—TRANSPORTATION, COMMUNICATION, AND OTHER PUBLIC UTILITIES

Transportation:

- 45 Air transportation
 46 Petroleum and gasoline pipe lines
 47 Railroads (includes railroad repair shops)
 48 Railway express service
 49 Street railways and bus lines³
 5V Taxicab service
 50 Trucking service
 51 Water transportation
 52 Warehousing and storage
 53 Services incidental to transportation
 54 Not specified transportation

Communication:

- 55 Telephone (wire and radio)
 56 Telegraph (wire and radio)
 57 Radio broadcasting and television

Utilities:

- 58 Electric light and power
 59 Gas works and steam plants
 6V Water and sanitary services

F.—WHOLESALE AND RETAIL TRADE

Wholesale Trade:

- 60 Wholesale trade

Retail Trade:

- 61 Food stores, except dairy products
 62 Dairy products stores and milk retailing

² Includes metal engraving (except for printing purposes), plating, and polishing.

³ Includes suburban and interurban railways.

F.—WHOLESALE AND RETAIL TRADE—Continued

Symbol

Retail Trade—Continued.

- 63 General merchandise stores
- 64 Limited price variety stores
- 65 Apparel and accessories stores, except shoes
- 66 Shoe stores
- 67 Furniture and housefurnishings stores
- 68 Household appliance and radio stores
- 69 Motor vehicles and accessories retailing
- 7V Filling stations
- 70 Drug stores
- 71 Eating and drinking places
- 72 Hardware and farm implement stores
- 73 Lumber and building material retailing
- 74 Liquor stores
- 75 Retail florists
- 76 Jewelry stores
- 77 Fuel and ice retailing
- 78 Miscellaneous retail stores
- 79 Not specified retail trade⁴

G.—FINANCE, INSURANCE, AND REAL ESTATE

- 8V Banking and other finance
- 80 Insurance
- 81 Real estate

H.—BUSINESS AND REPAIR SERVICES

- 82 Advertising
- 83 Business services, except advertising

H.—BUSINESS AND REPAIR SERVICES—Continued

Symbol

- 84 Automobile storage, rental, and repair services
- 85 Miscellaneous repair services and hand trades

I.—PERSONAL SERVICES

- 86 Domestic service
- 87 Hotels and lodging places
- 88 Laundering, cleaning, and dyeing services
- 89 Miscellaneous personal services

J.—AMUSEMENT, RECREATION, AND RELATED SERVICES

- 9V Theaters and motion pictures
- 90 Miscellaneous amusement and recreation

K.—PROFESSIONAL AND RELATED SERVICES

- 91 Educational services
- 92 Medical and other health services
- 93 Legal, engineering, and miscellaneous professional services
- 94 Charitable, religious, and membership organizations

L.—GOVERNMENT

- 95 Postal service
- 96 National defense
- 97 Federal Government n. e. c.
- 98 State and local government

M.—NONCLASSIFIABLE

- 99 Nonclassifiable

⁴ May include some returns not specified as to whether the workers were in wholesale or retail trade.
